Features: Forged alloy wheels, 5yr unlimited km warranty, high load rating with weight saving of up to 50% of steel equivalent and comes in machined, polished finishes.

Recommended applications: All trucks and trailers

Notes: European & Japanese trucks manufactured with steel wheels have short length studs and require JOST sleeve nuts to be used in conjunction with 32mm stud hole wheels (see picture).

Rating: 3650kg to 5000kg (dependent on wheel type)

All pricing excludes GST. Other configurations available.

JOST Sleeve Nuts
