

August 2020

The purpose of this letter is to provide an important update to our customers:

1. All five JOST branches – **including our Head Office in Melbourne** - continue to provide a full-service operation that complies with increasing COVID-19 related restrictions, including those at Victoria Level 4. Furthermore, customers can have **full confidence in our international product supply chain**.
2. However, we recognise that the COVID-19 pandemic does create many additional / abnormal considerations that our customers and JOST need to concentrate on. We have therefore decided to push-back **the Go-Live date of our new ERP Business and Finance System to October 1, 2020**.

If you have any questions or concerns regarding this communication, please speak with your usual contact at JOST.

Sincerely,

JOST Australia

Wherever you are, we're here for when you need us.
